About Us

In 1947 the Simón family decided to settle in the city of Albacete, Spain, opening their first establishment in that city selling typical souvenirs, such as flamenco dolls and bullfighters, and classic Spanish Albacete pocket knives.

Due to the high demand for pocket knives, since Albacete is a city with a tradition in the manufacture of knives, pocket knives and scissors for centuries and which remains in force today, the founder, Miguel Simón, decided to focus the business activity on the sale of cutlery.

Years later, the first Simón Cutlery was established in Madrid, capital of Spain, a few meters from Puerta del Sol, a business run by Carlos Simón Ruiz, from 1970, until his retirement in 2018.

In 2006, Juan Carlos Simón and Jose Luis Simón, third generation, joined to run the current Simón Selección Cutlery located a few meters from Puerta del Sol in Madrid, dedicating all their efforts to the manufacture and marketing of cutlery products. Spanish and Japanese, being a benchmark for the quality of cutlery products in Spain and, today, they sell more than 5000 high-quality cutlery products basing their activity on kitchen knives, scissors for various uses, classic Spanish pocket knives made by the best Spanish knifemakers, sharpening systems and items to cut and taste the ham such as knives for slicing and boning the ham, ham holders and sharpening steels such as those that we present in our third edition of the product catalog that holds in his hands.

The Simón PRO Forjado ranges of knives with more than 30 items and Simón PRO Micarta with more than 15 different items entirely made in Albacete in forged steel in one piece, represent our most demanded knives worldwide.

Simón PRO Forjado Series

Kitchen knives made of authentic forged steel dishwasher safe, polypropylene handles with polished aluminum pins. Our range of Simón PRO Forjado knives are made starting from steel rods transformed through the forging manufacturing process in a single piece without welds, guaranteeing a robustness and reliability far superior to other knives on the market that weld the handle with the blade, with two different types of steel to reduce manufacturing costs.

All our Simón PRO Forged kitchen knives are presented with a brown leather sheath for transport or to be stored in a drawer without the danger of cutting or deteriorating the edge due to rubbing with other instruments that have been deposited in the drawer. Made entirely in Albacete, Spain.

Simón Damascus Knives Series

Kitchen knives from our Simón Damascus series made under the demands of our company, both in materials and in manufacturing processes. Entirely made in Japan with Swedish steel base Sandvik 19C27.

Damascus steel kitchen knives made in Japan using the 55 layer damask technique and a completely hand hammered finish with a walnut wood handle with ebony wood bolsters.

Simón Damascus knives are forged blade knives with a traditional Hocho handle insert system, that is, inlaying the blade of the knife inside the natural wood handle, with natural resins. The entire range of Simón Damascus knives are specially hand-sharpened with ceramic stones. The quality of our knives allows us to offer a guarantee for three years.

Made in: Japan
